EXPERIENCE

Software Engineering Intern
Inkling

📅 May 2018 – Aug 2018   📍 San Francisco, CA

- Independently created a **monorepo** on **Git** preserving project histories for **brownfield** React Native development.
- Enhanced the user experience of the notification center screen for Inkling Loop, used by **thousands daily**.
- Wrote a **React Native bridge** to expose existing internationalization infrastructure to allow the React Native views to be localized in **12 languages**.
- Co-developed the content alerts feature for Inkling Axis increasing the user session length by **3.6%** and sales by ≈**14%**.

Full Stack Developer
StackAdapt

📅 Aug 2017 – Nov 2017   📍 Toronto, ON

- Automated ad audit notifications to Slack saving **4 hours daily** of the product quality team.
- Developed features such as multi edit and upload of ads, and the ability to target them to different devices giving the user more **flexibility**.
- Independently enhanced the campaign creation and management process **improving the overall UX** of the main feature of the platform.

Software Engineering Intern
TheRedPin.com

📅 Jan 2017 – Apr 2017   📍 Toronto, ON

- Designed the property lookup page of the new web platform providing the ability to navigate by customized property cards, map, and save searches **improving user retention by 2%**.
- Implemented caching strategy to decrease search results load time by **1.5 seconds**.

Software Engineering Intern
TheRedPin.com

📅 May 2016 – Aug 2016   📍 Toronto, ON

- Modified and **improved a cohort analysis model** for tracking leads and assessing the effectiveness of marketing channels in Salesforce.
- Led the development of a React Native mobile application designed for real estate agents, including its **first and second release** to the App Store.

SELECTED PROJECTS

Unbiasify

- Lead developer of Unbiasify, an open source Chrome Extension featured on Tech Vibes, BetaKit, and partnered with Lever.
- Implemented closures to create models for toggling names and pictures on LinkedIn, Twitter, AngelList, etc.
